WHOLE HOUSE FILTRATION

FILTER

WHOLE HOUSE- remove and reduce Sediment, Chlorine, Chloramine, Ammonia, Chemicals, Disinfectant Byproducts, Trace Pharmaceuticals, Improve taste & odor

TREAT

WHOLE HOUSE- prevent limescale damage to fixtures (faucets/shower heads). appliances (dishwasher/washing machine), water heaters (tank & tankless)

SUPERB WHOLE HOUSE FILTRATION!

The activated carbon block cartridges help reduce SEDIMENT while providing greater CHLORINE and CHLORAMINE performance reduction capacities than granular carbon. They also significantly reduce the carbon fines found in many granular canisters. The right carbon filtration is most effective in removing ORGANIC contaminants and trace PHARMACEUTICALS from water. Because organic chemicals are often responsible for TASTE, ODOR, and COLOR problems, carbon filtration can generally be used to improve aesthetically objectionable water. Carbon also removes harmful DISINFECTION BYPRODUCTS from your municipal water!

THE BEST SOLUTION TO TREAT & ELIMINATE CALCIUM SCALE

ELIMINATES AND REMOVES CALCIUM SCALE
GREEN TECHNOLOGY
PRESERVES BENEFICIAL MINERALS
NO ELECTRICITY
NO SALT OR CHEMICALS
NO WASTED WATER
GUARANTEED

SPACE SAVING AND
LOW MAINTENANCE!

Recommended filter
change only once or
twice a year based on
water quality and volume

Any Pre-Existing scale is simply
washed away over time!
